2. Camera Setting Check

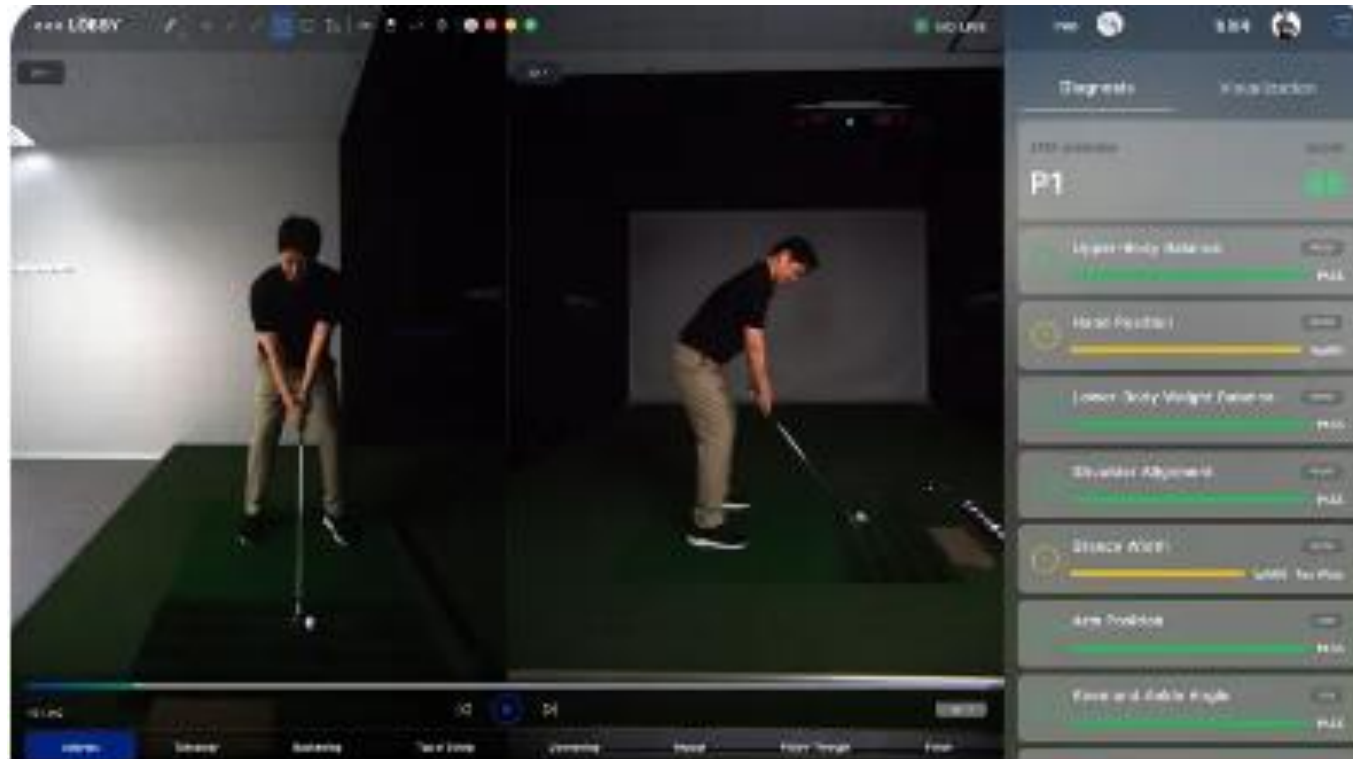

Camera Setting Check

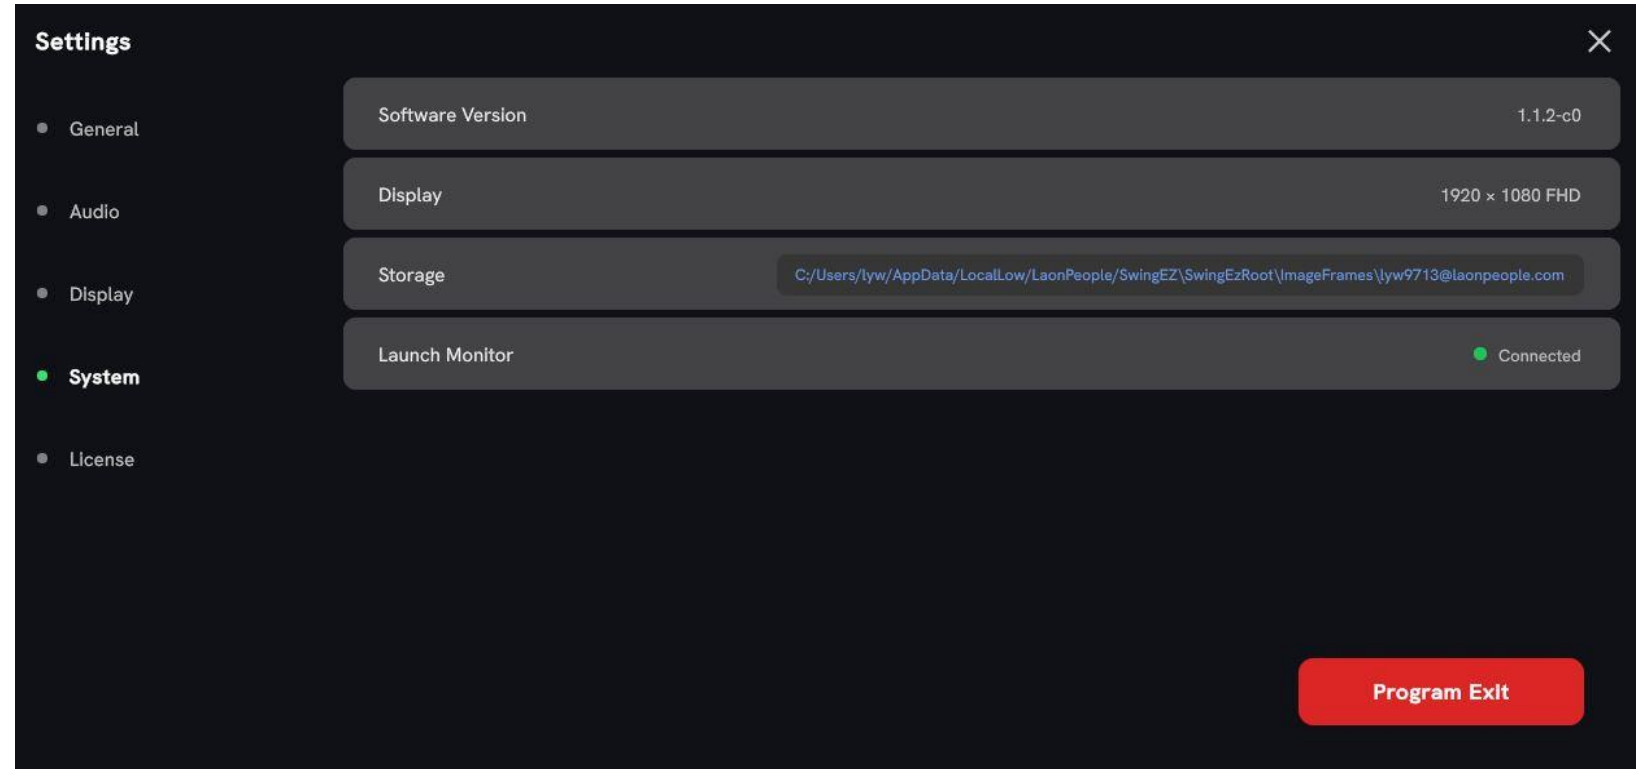

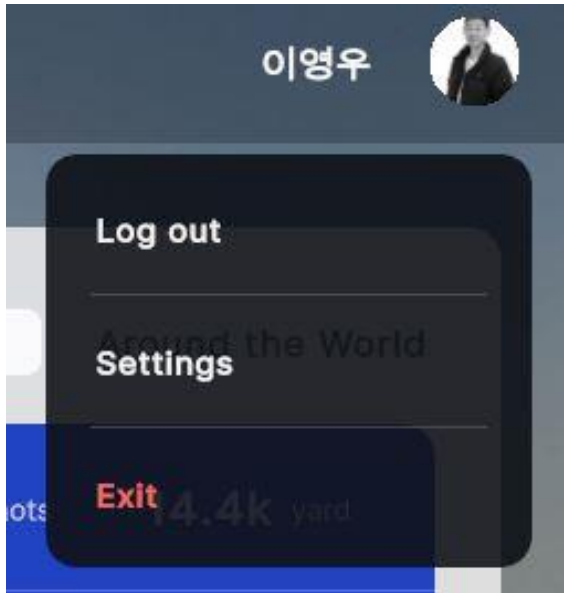

Left side of the screen : Front camera image (facing the user)

Right side of the screen : Side camera image (facing the screen)

If the direction is reversed, please refer to the provided manual to switch it.

3. Move to the Data folder

1. Select Profile
2. Select Settings
3. Select System
4. Click the storage path on the settings screen
 - Please compress and send 1 to 2 folders.
(One folder is created per swing. Please make sure to compress the data by folder)
